

NASSS LCDP Policy: May 2005

NASSS LCD PROJECTOR POLICY

For the first time, NASSS will make available LCD projectors for use at the conference. As an alternative to the very high cost of LCD projector rental, the program committee has asked NASSS members to donate the use of projectors from their institutions to the conference. However, a very limited number of projectors will have sound capability and NASSS cannot guarantee that sound will be available with the projectors. Due to these limitations, NASSS asks all presenters requesting LCDs with sound to include (in parentheses at the end of their abstracts) a brief explanation of why LCD usage with sound capability is critical to their presentations. Because we will not be able to honor all requests for sound equipment, presenters should also specify in their abstracts whether or not they need a VCR in case an LCD projector with sound is not available. Overhead projectors will be available in all rooms. Please note: **Those using the NASSS LCD projectors will be asked to provide their own laptop computers, or arrange to use that of another conference attendee.** If you have an LCD projector that you are willing to bring to the conference, please contact Maureen Smith: smithmm@csus.edu
